**Universal Home Care (UHC)** is recognized as one of the few specialized cancer care home health providers for SoCal & has developed a unique/multidisciplinary approach for treating patients with a cancer diagnosis from home.

**UHC's** specialized cancer care team focuses on supporting a patient at home because we believe cancer care deserves the same level of specialty care as treated in other health care settings. Our clinical team is dedicated and trained in skilled care related to cancer treatment and recognizes the importance of proper intervention as a means to reduce hospitalizations.

*Cancer rehabilitation is  
our goal & primary focus!*

Our treatment offerings are addressed by implementing the following choices for care in the comfort of your residence:

- ❖ Disease Education
- ❖ Medication Management
- ❖ Pain & Symptom Management
- ❖ Palliative Care & Support
